Sir:

In response to the Office Action dated September 10, 2004, the following remarks are submitted.

REMARKS

Claims 1 through 5 are pending in the present application. Claims 1, 2, 4 and 5 stand rejected. Claim 3 stands under objection solely for its dependence from a rejected parent claim. Claim 3 has been indicated otherwise to be allowable. Favorable reconsideration and withdrawal of the rejections of record are respectfully solicited.

Claims 1, 2 and 4 have been rejected under 35 U. S. C. § 102(a) as being anticipated by U.S. patent 6,649,944 (Ker), as set forth at paragraph 1 of the Office Action. It is well settled that anticipation, under 35 U.S.C. § 102, requires that each element of a claim in issue be found, either expressly described or under principles of inherency, in a single prior art reference. *Kalman v.*
